HEALTH ASSESSMENT AND NURSING THERAPEUTICS

NUR 330
Sections 001 and 002 Theory: Thursday – 12:40pm to 3:30pm
Room – A-131 Life Sciences Building
Section 001 Lab: Mondays 8:00 am – 11:50 am; Clinical: Tuesday 7:00 am – 2:00 pm
Section 002 Lab: Monday 12:00 pm – 3:50 pm; Clinical: Wednesday 7:00 am – 2:00 pm
7 Credits
Fall 2012

Catalog Course Description: Normal physiology and pathophysiology. Theories of growth and development across the life span. Therapeutic communication and physical, psychosocial, cultural and spiritual assessment techniques and mastery of basic nursing therapeutics. Understanding the significance of abnormal physiological health transitions of the adult.

Course Objectives: At the end of this course, students will:
1. Follow procedures for the interactive processes related to health assessment and nursing therapeutics with individuals. (communication)
2. Demonstrate the use of the critical thinking process used in nursing practice, including the significance of abnormal findings. (clinical decision-making)
3. Follow protocols for the delivery of standardized nursing care to selected individuals.
4. Distinguish underlying risk factors and health promotion needs identified by the health history and physical appraisal.
5. Understand basic principles of nursing therapeutics that promote health and reduce risk of disease
6. Follow procedures associated with the coordination of care required to manage illnesses or diseases of selected individuals.
7. Describe the impact of effective professional leadership within varied types of health care delivery settings.
8. Follow basic ethical decision making processes in their nursing practice.
9. Apply concepts from theories and research evidence to the prevention and treatment of illness and disease of selected individuals.
10. Describe underlying theories and principles of human and environment interactions that affect the health of selected individuals.
11. Demonstrate cultural awareness when performing a health history and physical appraisal (global and cultural competence)

Prerequisites: NUR 300
Co-requisites: PHM 350 concurrently, NUR 340 concurrently
Professional Standards & Guidelines: The curriculum is guided by the following documents:

Faculty: Carol Vermeesch, MSN, RN (Course Coordinator)
Contact Information: vermeesc@msu.edu, Office: (517) 432-4531
Office Hours: Thursday: 3:30-4:30pm (Office A110 Life Science Building)
Note: Times can be arranged to accommodate student schedules.

Faculty: Debra Stieve, DNP, RN
Contact Information: debra.stieve@hc.msu.edu, Office: (517) 432-1163
Office Hours: By Appointment
Note: Times can be arranged to accommodate student schedules.

Faculty: Lisa Marie Palmer, MSN, RN
Contact Information: lisa.palmer@hc.msu.edu, Office: (517) 353-4801
Office Hours: By appointment
Note: Times can be arranged to accommodate student schedules.

Faculty: Karen Malmsten, MSN, BSN, RN
Contact Information: karen.malmsten@hc.msu.edu, Office: (517) 353-4759
Office Hours: By appointment
Note: Times can be arranged to accommodate student schedules.

Faculty: Lan Yao, PhD, RN
Contact Information: lan.yao@hc.msu.edu, Office: (517) 353-4769
Office Hours: By Appointment
Note: Times can be arranged to accommodate student schedules.

Instruction:
a. **Methodology:** NUR 330 is a 7-credit course that includes a theoretical, lab and clinical component. This course introduces the beginning nursing student to the concepts and skills related to health assessment, and the development of professional nursing practice. Three hours per week are designated for theory content. Theory content will be presented through lecture, small group discussion, independent viewing of media, and workbook assignments. The completion of assigned readings, workbook exercises and media prior to each class is necessary to facilitate comprehension, understanding and integration of content vital to this course. Ten hours a week are designated for lab/clinical study. Four hours a week are designated for study in the simulation lab while six hours a week are designated for clinical experience. The lab content of the course will be front loaded with the students utilizing clinical time initially in the simulation lab. Laboratory content will be taught through small group discussion, demonstration-return demonstration techniques, independent viewing of media, independent student practice of skills, and written assignments. The clinical practicum will provide immersion of health assessment of the adult with application in acute care settings. Initial health assessment will be focused on the healthy individual and progress throughout the semester to the acutely ill individual.

b. **Writing Requirements:** Written assignments must be typed and references must follow The *Publication manual of the American Psychological Association* 6th edition (APA) format. Any papers with multiple spelling or grammatical errors which present a significant barrier to understanding will not be accepted and given a grade of "0". All written graded assignments must be submitted with the grading tool.
c. **Honors Option:** Honors option is available upon request. Interested students must make arrangements with faculty for honors option learning activities during the first two weeks of the semester. Refer to the BSN Student Handbook for CON Policy related to Honors Options in Nursing Courses.

Evaluation:

a. **Learning Assessments and Grading:** NUR 330 course grade will be based on 50% of the grade from theory and 50% of the grade from lab/clinical (lab/clinical includes clinical assignments). In addition, the student must also achieve a final score of successful in all areas of the Clinical Evaluation Tool in order to pass NUR 330. A student must achieve a minimum grade of 75% or 2.0 in clinical assignments and in the theory class in order to pass the course, regardless of the weighted total of the two. If the student fails to achieve a final score of successful in any area of the Clinical Evaluation Tool, or if the student fails to make a grade of 75% (2.0) in either clinical assignments, or in the theory class, a grade point of “0” will be assigned for the course.

b. **ANY STUDENT DEEMED UNSAFE IN LAB/CLINICAL WILL NOT PASS THE COURSE AND RECEIVE A GRADE POINT OF “0”.**

**Theory Grade (50%)**

**The theory grade will be based on 3 exams and the ATI Fundamental for Nursing Assessment. In addition the student will be responsible for attending Assessment Technologies Institute (ATI) registration with payment and completing a Nurse Logic assignment through ATI. Please see the Baccalaureate Student Handbook regarding the ATI policy**

- Exam I: 27%
- Exam II: 27%
- Final Exam: 36%
- ATI Nurse Logic: Pass/Fail
- ATI Fundamentals Assessment: 10% (See ATI policy)

**The ATI Fundamentals for Nursing Assessment will be given at **10:00am on Friday Nov. 30th**.

**Attendance is mandatory for ATI Testing**

**Lab/Clinical Grade (50%)**

**The lab/clinical grade will be based on assignments. Assignments for NUR 330 will include a health history, the performance of a head to toe physical exam, medical terminology quizzes, dosage calculation quizzes, a written patient assessment and master problem list, a care plan/clinical synthesis assignment. The final demonstration and evaluation of the Physical Exam is an Indicator for NUR 330 and must be passed by 75% (150 points). Any student receiving less than 150 points will not be able to progress in NUR 330 regardless of their previously earned points for the course. All written assignments must include a grading tool when submitted. Both Math Calculation quizzes must be passed by a 75%. If you do not achieve a 75% you will be required to remediate and be re-tested until you achieve 75% (your original grade will not be changed after the re-testing).**

Clinical assignments/quizzes are weighted as follows:

- Health History Assignment (Written): 10%
- Health History Assignment (Learning Assessment Center): Pass
- Quizzes:
  - Medical Terminology I & II: 20%
  - Math Calculation I & II: 20%
- Physical Exam Final (Indicator): 20%
- Physical Assessment and Master Problem List: 10%
- Care Plan/Clinical Synthesis Assignment (Indicator): 20%
- Oral Presentation of Community Resource: Pass
The clinical performance will be based on the Clinical Evaluation Tool. The student must be at a passing (successful) rating in order to pass NUR 330. If the student does not achieve a successful score in all of the performance criteria, he/she will not pass NUR 330.

**Pass-Fail:**

Each student must successfully complete ALL pass-fail experiences, including Health History on a Standardized Patient, Oral Presentation of Community Resource, return demonstrations of lab skills, assigned paperwork, and individual clinical faculty assigned work to receive credit for NUR 330. Return demonstrations of lab skills (clinical skills check-offs) will be scheduled throughout the semester. The student is expected to demonstrate competency during these check-offs. If the student does not demonstrate competency during the check-off, a Lab Clinical Deficiency Form will be filled out and filed in the student’s permanent record in the Office of Student Support Services. Students will have ONE opportunity to repeat a lab skill. If students are not successful in passing the skill after two (2) attempts, they will be referred to the Course Coordinator for counseling and remediation.

### Course Grading Scale:
The standard College of Nursing grading scale will be utilized.

<table>
<thead>
<tr>

“Final Course Grades will not be rounded”

### Required Equipment, Textbooks and Resources:

a. **Required Equipment**

- College of Nursing Clinical Uniform: students will order uniforms **August 29th, 2012.** They are to be worn to lab/clinical as soon as they are available—white shoes with a closed heel and toe (to be worn to clinical) are available through the uniform company or can be purchased separately—white shoes do not need to be worn to lab, but closed heel, closed toe shoes do need to be worn with the uniform in lab.
- College of Nursing Skills Bag (purchased in the Fee Hall Bookstore)
- College of Nursing ID Badge (to be obtained through the CON)
- Stethoscope (with bell and diaphragm)
- Watch with second hand or second hand function
- Current membership in the National Student Nurses' Association (NSNA) and MSU Nursing Students’ Association (NSA) Failure to show current membership in NSNA and NSA will result in a grade of “0” for NUR 330.
- ATI Registration and payment. Failure to show registration and payment for ATI will result in a grade of “0” for NUR 330.
- Skyscape software loaded on mobile device of your choice
b. Required Textbooks

*American Nurses Association Electronic Books (E-books)*

*American Nurses Association (2010). Nursing Scope and Standards of Practice*<http://catalog.lib.msu.edu/record=b8270966%7ES39a%20> (2nd ed.). Silver Spring, MD

(*Note to Students: Access these e-books through the MSU Libraries Catalog or the Nursing E-book page: http://libguides.lib.msu.edu/nursingebooks. These e-books allow unlimited concurrent users.)*

c. Required Resources, References

ANGEL Help Line
1.800.500.1554 (24 hrs, 7 days/week)
517.355.2345 (24 hrs, 7 days/week)
www.angel.msu.edu (ANGEL Help link in upper right corner)
Always check with the ANGEL Help Line first!

d. Frequently Called Telephone Numbers

Simulation Lab (Kimberly Patterson) Life Sciences; 355-5765 (with answering machine)
Media Lab (Andy Greger) Life Sciences, 353-9020
College of Nursing Student Support Services A117 Life Sciences 353-4827.
The CON has defined the following competencies that must be achieved by all students in each Level before progressing onto the next Level and graduating. At the end of each Level, all students will achieve the objectives and competencies listed below for that level, as well as the indicators specific to each course. All indicators, as well as the overall grade for a course, must be at 75% passing to proceed onto the next level.

Course Policies:

A. Attendance

Nursing is a professional program and attendance is an expectation. If you are unable to attend NUR 330 Lab or Clinical related to an emergency or serious illness, notification of the lab/clinical instructor must be made prior to the Lab or Clinical experience time. Failure to assume responsibility and accountability for lab or clinical attendance will result in the student being individually counseled and reported to the Course Coordinator. It is expected that students will be on time for lab and clinical. Excessive absence and or tardiness, or a perceived pattern of absences or tardiness may result in a 0.0 being awarded for the course. If a message is left on voice mail or an answering machine, it is the student’s responsibility to follow up the recorded message with a personal conversation within 24 hours.

Attendance for clinical is required. Any missed hours will be made up on designated dates for successful completion of the course.

Students whose names do not appear on the official class list for this course may not attend this class. Students who fail to attend the first four class sessions or class by the fifth day of the semester, whichever occurs first, may be dropped from the course.

B. Examinations

Examinations will be given during course periods. Students arriving late will have the scheduled time for completion of the exam. All students are expected to take examinations on the date scheduled, unless prior arrangements are made with the course faculty. For emergency situations, students are to contact faculty as soon as possible. If unable to contact faculty, call College of Nursing office and leave a message regarding the reason for absence. It is the student’s responsibility to reach faculty as soon as possible following the examination. Arrangements to take an alternate examination will be made at that time. There will be one opportunity for an alternative exam. Alternate exams may use additional formats (essay, fill in the blank, etc.). Make-up exams are routinely scheduled within one week of the original exam date. Health provider’s statements may be required. Questions regarding examination grades will be put forward within two weeks of the exam date. Alterations will not be made after this time.

C. E-Mail and Student Mailboxes

All students are expected to check their e-mail and student mailboxes (in the Student Lounge) to retrieve course information. Student paperwork will be returned on a timely basis and placed in the mailboxes or handed back in lecture or clinical setting.

E-mail is for the sole purpose of conveying constructive, positive course and nursing information ONLY and is a privilege. Student E-mail is not to be used to convey personal opinion, pass on chain letters, advertising or unauthorized statements.

D. Student Faculty Relationship

It is expected that a professional, courteous, and positive demeanor will be exhibited to peers, faculty and College of Nursing staff with each encounter. It is expected that you will be on time to theory, lab and clinical. If for some reason you have to be late or leave early, the course coordinator or your lab instructor should be notified and plans will be made so you will not disturb the entire class. Talking, reading the newspaper, utilizing the College of Nursing or personal computers to surf the web and sleeping are considered unacceptable during lecture. Asking questions and requesting clarification of information is highly encouraged as student input is valued and worthwhile. Timeliness, honesty and integrity, a positive attitude, assertive communication skills and motivation are some of the personal skills that one should be developing, or refining, during nursing school. These positive skills will be utilized in your two years at the College of Nursing and in your chosen profession. The class will discuss a code of conduct for NUR 330 lecture and agree on expected and acceptable behaviors during the first week of the semester.
E. Late Assignments

All students are expected to turn their assigned work in on the dates and times specified on the Course Calendar, unless prior arrangements have been made with the Course Coordinator. Late assignments if accepted carry a penalty. If the assignment is accepted, two percentage points per day will be subtracted for paperwork that is late (these will be subtracted starting from the time the assignment is due). If more than one assignment is late, there will be an increase in the amount of points being subtracted from subsequent late assignments.

F. University & College Policies:

The College of Nursing expects that students will demonstrate professional behavior in all situations. Specific expectations for clinical and other professional venues can be found in the appropriate handbook. You are responsible for reviewing and acting in accordance with the policies and procedures found in the following sources, including the following topics: Professionalism, Academic Integrity, Accommodations for Students with Disabilities, Disruptive Behavior, Attendance, Compliance, and Progression.

- CON Student handbook  http://nursing.msu.edu/handbooks.asp
- Information for Current Students—including Rights, Responsibilities and Regulations for Students  http://www.msu.edu/current/index.html

**FINAL WEEK: FINAL EXAM AND CLINICAL EVALUATIONS**—NUR 330 Final will be cumulative (100 multiple-choice question). The final will be Thursday December 13th, 2012 from 12:45-2:45 p.m.

**The Proctored ATI Fundamentals Assessment will be given on Friday Nov. 30th at 10:00am (attendance is mandatory)**

**The Second Proctored ATI Fundamentals Assessment will be given Wednesday Dec. 12th at 10:00am (only for those who are required to take it—see ATI Policy)**
