*For specific information regarding grading related to student progression through the curriculum, please reference the “Progression through the Major Policies” section of the Baccalaureate Student Handbook.*
**Professionalism:** All on-line discussion and course content is confidential. During the course, you will be participating in discussion forums to help relate the content you are learning to your practice. It is important that you maintain confidentiality in all postings, including names of individuals and organizations and that any information shared in discussion forums not be shared in any other venue.

In order to promote an open and engaging learning climate, all students need to be able to express their thoughts in a safe environment. Mutual respect, valuing of others opinions and professional language is expected at all times. Postings which are deemed unprofessional in any way may be deleted by the instructor and may result in a loss of points. Students who do not show respect and/or professional communication will receive one written warning (via email) informing them of the communication that did not meet course standards, suggestions for change, and that any further breaches in professional communication will result in disciplinary action; from the lowering of the student's grade up to dismissal from the course. Professionalism also includes actively participating in dialogue in the class throughout the week.

All work is to be the student's own work and submitted by the defined due date. Students also are required to maintain compliance within the CON, which includes ACE passport requirements (immunizations, BBP, and HIPPA). Failure to maintain compliance can result in removal from the class. If there are extenuating circumstances, students are to contact faculty as soon as possible to discuss options. Late or incomplete assignments will result in loss of points and may not be accepted. Students are to contact faculty early if there is a question regarding an assignment or the possibility of unsuccessful completion.

**Time requirements:** Students are responsible to note assignment due dates and plan accordingly so that all assignments can be completed on time. All assignments are expected to be completed and submitted by the due dates noted on the calendar. Exceptions will be made in extenuating circumstances only. Weekly lessons will begin on Sunday at 0005 and end on Saturday at 2355 unless otherwise noted. Specific time requirements for discussion board postings will be noted in the discussion forum evaluation rubric.

**Attendance:** Students are expected to log into the course a minimum of three times throughout the week. Please note that participation in discussion forums (DF) consist of a minimum of one substantial post* prior to the stated date in the discussion forum, and a minimum of two substantial replies to posts* to other students’ DF posts by the close of the discussion forum.

*Substantial posts are those that demonstrate an understanding of the concept, synthesize and apply the material, and share new insights to the discussion. “Good post”, or similar brief posts do not count as a substantial post. Course access may be monitored via D2L.

**Technical problems:** Students who experience technical difficulties should notify D2L help desk immediately in an attempt to resolve the issue. In the event technical issues prevent the submission of an assignment or required posting by the scheduled deadline, notify your course faculty member immediately to discuss alternate options. No extensions will be granted for technical problems unless there are documented attempts to resolve the problem with the help desk AND course faculty is contacted. Technical issues do arise on occasions, so plan accordingly and do not wait until the last minute to complete or submit an assignment.
